

Oncology Rehabilitation Navigator

The Oncology Rehabilitation Navigator is an important person in a cancer patient's care team. They can help patients stay as active and independent as possible during and after cancer treatments. The Oncology Rehabilitation Navigator is able to provide patient education to combat side effects of treatment. They perform screenings and monitor patients throughout treatment to decrease fall risk as well as improve strength and energy levels.

Ashley Perry
PT, DPT, MTC

Halifax Health | Brooks Rehabilitation - Outpatient Rehabilitation is the only facility in the region to offer this role.

Talk to our Oncology Rehabilitation Navigator today. You may be a candidate for rehabilitation services if you are experiencing any of the following:

- › Generalized Weakness
- › Decreased Range of Motion
- › Difficulty Walking
- › Deconditioning - Decrease in the ability to complete daily tasks
- › Swallowing difficulty
- › Decreased Bone Density
- › Lymphedema - Swelling of the arm or leg

Let our experienced team develop an individualized treatment plan to take your fight to the next level.
